

SATURDAY, JULY 18, 1896.

L. P. FISHER, NEWSPAPER ADVERTISING AGENT, 21 Merchants' Exchange, San Francisco, is our authorized agent. This paper is kept on file in his office.

FOR PRESIDENT,
WILLIAM J. BRYAN,
OF NEBRASKA.

FOR VICE PRESIDENT,
ARTHUR SEWALL
OF MAINE.

THE SILVER AND GOLD PLANKS.

The financial planks of the National Republican and Democratic parties are here given side by side:

"We are unalterably opposed to the single gold standard. We demand the immediate restoration of the free and unlimited coinage of gold and silver at the present legal ratio of 16 to 1, without waiting for the consent of any other nation. We demand that the standard silver dollars shall be a full legal tender, equally with gold, for all debts, public or private, and we favor such legislation as will prevent the demonetization of any kind of legal tender money by private contract."—Democratic platform, Chicago, July, 1896.

One is unalterably opposed to the single gold standard and demands the immediate restoration of the free and unlimited coinage of gold and silver at the ratio of 16 to 1, without waiting for the consent of any other nation. The other is opposed to the free coinage of silver, except by international agreement, and unless such agreement can be obtained, the existing gold standard must be preserved. One is for independent action; the other is not. One is for immediate free coinage; the other is against it, unless by international agreement.

It is not necessary to ask under which flag the farmers, miners and common people of Nevada will fight, as they have declared their preference, but it is pertinent to inquire, why, if the gold standard is a good thing for the people, any effort should be made to get foreign nations to permit us to change it, and if it is not a good thing for the country, why not change it at once? England will not consent to the change, because it wants only a limited quantity of money in circulation here, and it can buy our wheat and cotton, our corn and pork, which it must have, for one-half what they would cost if money was abundant. If the gold standard prevails for four years more, more, as it certainly will, if Hannan and Clevelandism are endorsed, the value of property as measured by gold will continue to depreciate, and it is very probable that we will have thirty-cent wheat, and three-cent cotton, with all other commodities proportionately low within two years.

THE SILVER QUESTION IN NEW ENGLAND.

The Boston Post has opened its columns to the discussion of the financial question. It now publishes letters from the people. A traveling salesman who visits most of the small cities and towns in New England writes:

"Observation has proved to my mind that the silver craze is far more extensive than the most sanguine New England advocate would believe. If you talk with a political leader you get the views of his party; if you listen to the village and country merchant you get the most popular sentiment of his customers. After transacting my business with a merchant in a Connecticut village the subject of the campaign came up. He said he had been a true Republican for many years, but could not vote the ticket this year because the party, since its purchase by a syndicate which controlled its nominations and shaped its policy, had turned traitor to the poor people. With a syndicate of capitalists in the White House, the taxpayers would be drained worse than they have been by Cleveland's gold and bond policy, which God knows was bad enough.

"At this juncture an old farmer came into the store and I asked whether he was a gold bug or a silver bug. Replying that he was in favor of silver I asked him why, and here is his reply: 'We poor folks have been voting for the party and supporting our favorite politicians in the past, and are now upon the verge of a financial crisis. It is time we did something for our own interest. All the bankers, money lenders, capitalists, monopolists, syndicates, Wall Street operators, millionaires, railroad owners and politicians who have run the Government in debt and oppressed the working people favor a gold standard. That's why I am in favor of silver.'

"And it's a clincher, too. It struck my gold argument dumb, and since then I have favored silver, and lose no occasion to tell others of this logical argument."

Mayor Satrio of San Francisco at a meeting of the Election Commissioners came out boldly for Bryan. The Mayor is a Populist, but he says every friend of the people will vote for Bryan.

TELEGRAPHIC NOTES.

The great Ohio ranch in Southern California, containing 52,000 acres, has been sold to an English syndicate for \$1,600,000.

An ore steamer which was being unloaded at a railroad dock at Cleveland, Ohio, capsized because of the shifting of the cargo, and twenty-two men were drowned.

Jules Guichard, an associate of De Lesseps in the Panama Canal project and one of the Vice Presidents of the Suez Canal Company, died yesterday, aged 70 years.

Past Assistant Paymaster B. Webster of the Navy, stationed at Mare Island, Cal., has been found guilty of taking cash instead of a bond from a clerk for indemnity, and not returning the money when the clerk left the service. The sentence is dismissal.

The New York Bankers' Association is holding its annual session at Niagara Falls. There is a large attendance, and the President, James G. Cannon, complimented them for repelling the free silver attacks, and said it behooves them to stand firm, for honest statements, honest banking and for the honest dollar.

M. E. Peterson and Jack Sutherland were paying their attention to a girl at Danemur, California. Peterson warned Sutherland to let the girl alone, but he paid no attention to the warning. Peterson went to where Sutherland was at work, fired four shots at him with a Winchester, killing him instantly. Peterson was arrested.

The Wisconsin State Convention of the National silver party elected Dr. Frank A. Powell, who was the Populist candidate for Governor, permanent Chairman. Thirty delegates to St. Louis were elected and they were instructed to do all in their power to secure the endorsement of Bryan and Sewall.

Mrs. Rose Helmback of Meaderville, Montana, became jealous of the attentions her husband paid Mrs. Thomas Snelling. In company with her sister, Mrs. Hoskins, she went to Mrs. Snelling's house, called her into the parlor and threw a pint of sulphuric acid on her. Mrs. Snelling was fatally burned. Mrs. Helmback and Mrs. Hoskins were arrested. The latter is a raving maniac and is not expected to live.

Change of Firm.

Geo. Sauer, late of Washoe City and Fred Grob have succeeded to the butchering business of J. A. Holcomb at the Truckee Market. The new firm will endeavor, as far as possible to sustain the good reputation so long held by this pioneer market, and will try to merit an increase of patronage by the choice meats and butchers' novelties they will have on sale. Mr. Grob was formerly connected with the market and is well acquainted with the needs of all patrons. The business will be under the personal supervision of the two proprietors and no pains will be spared to give the best of service in their line.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and \$1 per bottle at S. J. Hodgkinson's drug store.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation, gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

When Baby was sick, we gave her Castoria.
When she was a Child, she clung to Castoria.
When she became a Woman, she clung to Castoria.
When she had Children, she gave them Castoria.

Coronado Coronado!

Natural mineral water bottled at the springs, near the Hotel Del Coronado, California. H. J. Thyes, State Agent, has received a carload and is now prepared to supply the trade and families cheaper than any mineral water ever placed on this market. All orders promptly attended to.

Viavi.

Viavi is more of a food than a medicine. I should be glad to have those who do not understand its use, call and get a Health Book free and read the home testimonials. Viavi sales in 1895 exceeded those in 1894 by half a million dollars. Mrs. B. E. Hunter, Fourth Street.

Cheap Footwear.

Now is the time to secure cheap shoes at cost. Tassell Brothers are closing out some of their lines of shoes, and will dispose of them at a bargain. Call and make your selection at once. 6-27/96

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamonddale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and \$1.

A CHILD ENJOYS

The pleasant flavor, gentle action and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use; so that it is the best family remedy known and every family should have a bottle.

The Halley, Idaho, Times of July 14th, contains the following in its court proceedings, which the JOURNAL has been requested to copy: "Alaina M. Leonard, decrees of divorce granted plaintiff."

"No legislation is good if it does not reach the masses."—W. J. Bryan.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

TRANSLATION.

[Seneca, "Odipus," 989 and
Pato drives us on. "Yield we to fate."
No ending there will mount our state.
Or change the web that fortune weaves.
Poor mortal man, who aims and grieves,
His course foretold from heaven receives.
There is the thread relentless spun
Of every life beneath the sun.
Their ordered path all things pursue,
And from the old was born the new.
No god that knits the annual chain.
That knits events might break in twain.
No prayer avails—his race each one
Foretold must run.—Academy.

WORKING IT BACKWARD.

Remarkable Things Shown by the Kinetoscope When Reversed.
"Impossibilities Made Possible by Means of the Modern Inventions in the Electrical Field" furnished the theme of a lecture given recently by Professor G. Quercourt in the Paris Academy of Sciences. During some of his experiments he hit upon the idea to turn around photographic records and also the series of pictures seen through the kinetoscope, respectively the kinetograph, which photographed a plant at regular intervals and shown in the kinetoscope the growth, the development of the stem, leaves, buds, flowers and fruit, the same consequence of photographic pictures reversed was presented to the eye of the astonished academicians, who wondered at the fruit turning into flowers, flowers into buds, buds drawing back into themselves, the leaves disappearing, the leaves closing, getting smaller and disappearing, the stem getting shorter and shorter, until the earth closes over it.

The most incredible things are developed before the eyes of the spectator if a most ordinary series of such pictures is reversed. A drinker takes up an empty glass and replaces it full upon the table; a smoker sees the stump of a cigar flying at him from the floor, takes it to his mouth and sees the smoke originate in the room, drives it into his mouth and into his cigar, which is gradually lengthened and finally replaced in the pocket. A wrestler, who has probably thrown away his garments, is recovered with them by their, so to speak, walking up on him into their places, while he himself performs motions of which we can understand nothing because we never saw these most ordinary motions performed backward; a man, for instance, seated at a table before an empty plate, watches hard taking bite after bite from his mouth, until the chicken is whole again on the dish before him, and the side dishes are also returned full to their respective places. In order to fully enjoy an exhibition of the kinetoscope, such an exhibition should be completed by arranging alongside of each other the same scenes in regular order in one machine and covered in another. It would be advisable, however, to inform the spectators previous to their looking at such a reversed series of pictures, for otherwise they might think themselves the victims of a dream, a hallucination, or something worse.—St. Louis Globe-Democrat.

Hope When You Are Hard Up.
The hopeful phase is what we seek work for the first time. Possibly we are in a state of despair. We are so sure that fate has something bright in store. We go from agent to agent, from editor to editor, from publisher to publisher. Agents are naturally pleased to pocket their fees as they smilingly assure us they will do their best to find us work. Editors receive us with a tired air and point to a pile of unread manuscripts. Poor editors! Publishers do us the honor of assuming that we have a book for inspection. Business employers scan us with a condescending eye. "No success capacity," is their inward comment. We read it in their faces.—Good Words.

The Two "Dark Days."
There are two "dark days" mentioned in the annals of New England. The first occurred on Oct. 21, 1719, when it strangely became dark soon after noon, that the people were forced to use artificial lights to do their ordinary work. This strange condition of the atmosphere lasted about 2 1/2 hours. Again, on May 10, 1780, there was a remarkable darkening of the atmosphere, but the phenomenon did not come on so suddenly as that upon the earlier date. The darkness in this latter instance began between 10 and 11 o'clock on the morning of the day named and lasted throughout the day. The darkness extended from the northeastern part of New England westward as far as Alabama and southward to Pennsylvania. The most intense and prolonged darkness, however, was confined to Massachusetts, more especially to the seaboard. It is said to have come from the southwest, but there is no mention of it made in the history of Ohio or the Virginia. The exact cause still remains one of the unexplained mysteries.—St. Louis Republic.

These Minutes.
"If wonder," said a member of a women's association, "why the report of the Secretary is referred to as 'minutes'?"
"I don't know," replied another. "It always seems a great deal more like hours."—V. M. M. M. M.

Entitled to the Title.
"Why does Mrs. Weston always refer to her daughter as a queen?"
"She married a cattle king."—Detroit Free Press.

SLEEPLESSNESS AND NERVE EXHAUSTION

PRODUCED BY INFLAMMATORY RHEUMATISM.

Two Cases in Gladwin County, Mich., Cited to Prove the fact that Nerve Debility can be Treated with a Nerve Food Successfully.

DO NOT USE A STIMULANT, USE A NERVE FOOD.

From the Courier-Herald, Saginaw, Mich.

Recently, a representative of the Courier-Herald was at the thriving village of Gladwin, Gladwin County, he heard of a case of this nature and that it had yielded to a short treatment with a celebrated remedy, the name of which has become a household word in every hamlet, village and city in the land. The victim of this unusually severe case of nervous trouble was Ransom Simmons, an old and well-known resident of the village. His nervous condition had grown worse and worse, until the slightest unusual noise, or even the opening of a door would almost drive him frantic. Skilled physicians had studied over his case and prescribed the usual remedies, but their efforts were unavailing, and the patient continued to get worse.

Finally, one day in reading a newspaper, he encountered an item in regard to a case somewhat similar to his own, and read with great interest of the means by which it had been cured. He at once decided to try the remedy, and he readily found the results of its use, we can not do better than quote Mr. Simmons' own words. When asked to narrate his experience, he spoke as follows:

"As the result of a long continued illness I became the victim of nervous debility in its most violent form about four years ago. I kept growing worse and worse until I had become so nervous that the least noise about the house, or the entrance of anyone into the house, would throw me into a violent nervous paroxysm. I tried medicine for the trouble, but was not relieved. Finally, I read in a Detroit, Michigan paper about a cure of a trouble somewhat similar to mine effected by a medicine known as Dr. Williams' Pink Pills, and decided to give these pills a trial. After I had taken a box of the pills, my nervousness began to be relieved, and after taking ten boxes of Pink Pills I was so well that I discontinued their use, and have not had a nervous attack since. In my case they acted quickly and effectively on my nervous troubles, and they proved an efficient and reliable remedy. Since using them I have recommended them to others, and they have used them with great benefit."

One day last week who had used Dr. Williams' Pink Pills for Pale People with great benefit, met my little girl on the street and on learning of my condition advised me to get some Pink Pills and take them. I got a box and began to use them according to directions. After two or three doses they acted very clearly on my nervousness. I had not been able to sleep for a long time and this was beginning to tell on me very severely. I had fallen away in flesh until I was very thin and weak and my hands were hardly more than skin and bone. As I said after two or three doses of Pink Pills they began to quiet my nervousness, and I could sleep. I continued to gain so that in a few months I was again able to be up and do my own work. The rheumatism has nearly left me. I am free from the pain in the head and at night I can get peaceful and refreshing sleep. These pills have done a great deal of good for me and I cannot say too highly of them. There are also other cases around me where they have been used and they have acted beneficially as they did in my own case. I cannot say too much for them and say these few words of testimony in order that others who are suffering as I was, may try them and get relief."

Mark Your Wheel.
John D. Carroll, chief detective of a wheelman's insurance company, said recently: "Every owner should have a private mark upon his or her wheel. By this I don't mean a simple mark upon the saddle post or on the saddle itself, as these are the very places where a thief will look for such a mark, and should they be there both saddle and post will be removed. If you want to make the private mark on any part of your frame, say on the underside of the top tube, turn your wheel upside down and remove a portion of the enamel, say 1 inch by 1 inch, and clean well till the metal is freed from any part of the enamel. Then cover the space so cleaned with a gray material—candle grease, for instance—then take a pointed instrument of some kind and wet the point with carbolic acid. Proceed to write your initials or private mark on the tubing, being sure that you have sufficient acid on the pointed pen before you begin. After allowing the acid to leave its trace on the tubing, you can rub off the grease, and one application of enamel will cover all trace of the mark you have made."—Philadelphia Ledger.

A Long Felt Want.
Agent (to superintendent of laundry) —I have come, sir, to ascertain if you would like to purchase one of my new machines.
Superintendent—No, we don't want any of your machines; we have all the machinery we can use.
"But, my dear sir, my laundry is complete without one of my machines."
"What is it, a mangle?"
"No, sir; my mangles and ironers are not in it when my machine gets to work."
"What is your machine for?"
"It's a machine made expressly to take buttons off garments. When it strikes a button, it removes the same in a twinkling, and rips the garment from end to end."
"Young man, you have a brilliant future before you. You may send half a dozen of your machines to the laundry at once."—Pearson's Weekly.

Sensational.
"How glorious to be rocked in the cradle of the deep! Don't you think so, Mr. Dusenberry?"
"Um—well, I don't know. It would be all right if the deep wasn't inclined to be too ambitious in the matter of rocking the cradle."
"Ah, but think of the sensations."
"That's just what I am thinking of."—Chicago Post.

Most Valuable Stamp.
The most valuable stamp in the world (says a platelist) is the 1-cent magenta stamp of British Guiana, dated 1856. There is only one copy in existence, and it will cost you \$5,000 if you are deemed worthy to desire to purchase it.

At the Convention in the City.

A lady, speaking about the influence of a beautiful object upon the character and conduct of young pupils, told a pretty story received by her from an eyewitness:
"Into a school made up chiefly of children from the slums the teacher one day carried a beautiful doll. Lily. Of course the children gathered about the pure, waxy blossom in great delight."
"One of them was a little girl, a waif of the streets, who had no care bestowed upon her, as was evinced by the dirty, ragged condition she was always in. Not only was her clothing dreadfully soiled, but her face and hands seemed totally unacquainted with soap and water."

"As this little one drew near the lovely flower, she suddenly turned and ran away down stairs and out of the building. In a few minutes she returned with her hands washed, perfectly clean, and pushed her way up to the flower, where she stood and admired it with intense satisfaction."
"It would seem," continued Miss Coffin, "that when the child saw the Lily in its white purity, she suddenly realized that she was not fit to come into its atmosphere, and the little thing fled away to make herself suitable for such companionship." Did not this have an elevating, refining effect on the child? Let us gather all the beauty we can into the schoolroom."—New York Tribune.

Some People.
I don't wonder that the carriages of the rich and noble so inflamed the passions of the peasantry that the result was the French revolution.
I am a peasant and I hire a cab whenever I want one, but I must say that my gorge rises at the sight of some of our fashionable equipages and their occupants.
It's a case of nose in the air all through.
The horses have their noses in the air because they are "checked up" for the purpose, while the coachman and footman are obliged to keep their proboscises "tip tilted" or they'd be discharged, but they need the naughty riders do the same?

They seem to be saying very often:
"Dear me! What can those creatures be who are actually walking? Don't run over them, James, for I'm afraid it will spoil the looks of the turnout."
Some people affect me just the same way when they enter a private box.
They come in noisily, and turn around half a dozen times ere they can find a resting place, like a dog before the fire, and then they survey the rest of the audience with such a patronizing air of proprietorship that I almost hope they will fall out of the box or be dragged out by the irate populace.—Folly Fry in New York Recorder.

Mark Your Wheel.
John D. Carroll, chief detective of a wheelman's insurance company, said recently: "Every owner should have a private mark upon his or her wheel. By this I don't mean a simple mark upon the saddle post or on the saddle itself, as these are the very places where a thief will look for such a mark, and should they be there both saddle and post will be removed. If you want to make the private mark on any part of your frame, say on the underside of the top tube, turn your wheel upside down and remove a portion of the enamel, say 1 inch by 1 inch, and clean well till the metal is freed from any part of the enamel. Then cover the space so cleaned with a gray material—candle grease, for instance—then take a pointed instrument of some kind and wet the point with carbolic acid. Proceed to write your initials or private mark on the tubing, being sure that you have sufficient acid on the pointed pen before you begin. After allowing the acid to leave its trace on the tubing, you can rub off the grease, and one application of enamel will cover all trace of the mark you have made."—Philadelphia Ledger.

A Long Felt Want.
Agent (to superintendent of laundry) —I have come, sir, to ascertain if you would like to purchase one of my new machines.
Superintendent—No, we don't want any of your machines; we have all the machinery we can use.
"But, my dear sir, my laundry is complete without one of my machines."
"What is it, a mangle?"
"No, sir; my mangles and ironers are not in it when my machine gets to work."
"What is your machine for?"
"It's a machine made expressly to take buttons off garments. When it strikes a button, it removes the same in a twinkling, and rips the garment from end to end."
"Young man, you have a brilliant future before you. You may send half a dozen of your machines to the laundry at once."—Pearson's Weekly.

Sensational.
"How glorious to be rocked in the cradle of the deep! Don't you think so, Mr. Dusenberry?"
"Um—well, I don't know. It would be all right if the deep wasn't inclined to be too ambitious in the matter of rocking the cradle."
"Ah, but think of the sensations."
"That's just what I am thinking of."—Chicago Post.

For Your Protection.

"Cathart" (Cure) or "Tonic" for Cathart in liquid form to be taken internally, usually contain either Mercury or Iodine of Potassa, or both, which are injurious if too long taken. Cathart is a local, not a blood disease, caused by sudden change of gold or cheap weather. It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the result is cathart will follow; severe pain in the head, a roaring sound in the ears, bad breath, and sometimes an offensive discharge. The remedy should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents.

SHERIFF'S SALE.

DENNIS MAHONEY, PLAINTIFF, VS
Anna Shesley, Defendant. Under and
by virtue of an order of sale and decree of
foreclosure and sale issued out of the Dis-
trict Court of the County of Washoe, in and
for the above entitled suit, wherein
Dennis Mahoney, the above named plaintiff, obtained a judgment and decree of fore-
closure and sale against Anna Shesley, de-
fendant, the 22d day of June, A. D. 1896, for
the sum of five hundred (\$500) dollars, to-
gether with attorney's fees, and \$10.00 in-
terest, and costs, according to said inter-
dict, I am commanded to sell all the right,
title and interest of the said Shesley, in and
to lot No. seven (7) in Block J, in Reno, Washoe county, Nevada,
fronting fifty feet on the west line of Pe-
nie street and extending back one hundred
and thirty feet to an alley, together with all
an forty feet
